

CAMPOS®

Stretch knitted fabric.

SILVER

It is an exclusive and innovative thread based on pure silver that bases its peculiarities on the many beneficial and healing qualities of silver. For thousands of years, silver has been used in thin sheets to treat wounds. Today it is recognized as the most effective antimicrobial agent. Currently, this fiber is used in various sectors, such as sports, medicine, or home textiles and clothing. Silver fiber is thermoregulatory, antistatic and garments with this fiber create a small magnetic field around the body, which improves blood circulation. Its use neutralizes the unpleasant odor caused by sweat and bacteria. Improves the evaporation process and efficiently transports moisture away from the skin, improving comfort.

FIBER PROPERTIES

- Antistatic
- Odor inhibitor
- Thermoregulator
- Magnetic field
- Antibacterial
