

CAMPOS®

Stretch knitted fabric.

Qi-TEX

The formulation of Qi tex® contains a special selection of bioceramics with properties to enhance body energy and balance.

The minerals in Qi tex® are extremely effective in absorbing infrared energy/radiation and subsequently emitting it back to the body. The body uses this additional energy to enhance central balance and improve energy levels. Infrared energy/radiation aids in muscle recovery.

Therefore, this treatment has the properties of:

- Recharging you while you sleep
- Preserving your body heat
- Improving your balance and physical condition

The body needs sleep to recover from the physical and mental exertion generated during the day. With the intention of improving sleep quality, the application of infrared radiation is incorporated.

PROPERTIES OF THE TREATMENT

- Body balance
- Recharge energy while you sleep
- Energy improvement
- Balance and fitness

Body balance

Recharge energy while you sleep
