Stretch knitted fabric.

BEDBUG REPELLENT

Sleep in total peace thanks to our repellent treatment that protects mattresses and textiles from unwanted insects. It offers an effective solution to keep your sleeping environment free of bedbugs.

Its advanced action creates a protective barrier that prevents infestation without compromising the comfort or quality of the treated materials. It works immediately and helps prevent reappearance.

Our repellent treatment:

- Forms a protective barrier to prevent pests.
- Provides long-lasting protection for safe, hygienic sleep.
- Is safe for mattresses, upholstery, and bedding—without altering softness.
- Ideal for hotels, care homes, hospitals, and residential use.
