

# CAMPOS®

Stretch knitted fabric.

## EASY CLEAN & LONG-LASTING PROTECTION

Campos easy Clean is a treatment applied to mattress fabrics that repels stains and liquids, making them easier to clean and extending their lifespan.

Thanks to an invisible protective layer, it prevents substances such as coffee, wine, or oil from penetrating the fabric, allowing easy removal with a cloth—no harsh products needed.

Besides easy maintenance, this finish enhances abrasion resistance, protects the fabric's structure without affecting softness or breathability, and reduces wash frequency—saving water and detergent. It's a safe, eco-friendly treatment, ideal for high-use mattresses in hotels, hospitals, and care homes.
