

# CAMPOS®

Stretch knitted fabric.

## FLAME RETARDANT

---

At Campos, we guarantee the highest safety standards for textiles with our advanced flame-retardant treatment. We use cutting-edge technology to reduce fire spread while complying with the most demanding international regulations:

- UNE-EN 597-1 and UNE-EN 597-2: Resistance to ignition sources such as cigarettes and flames.
- BS 7177: British safety standard for the sleep sector.

Our flame-retardant treatment does not compromise the comfort or softness of the fabric, ensuring excellent rest while prioritising fire safety. Ideal for hotels, hospitals, care homes, or any environment where fire prevention is essential.
