

# CAMPOS®

Stretch knitted fabric.

## SOFTENER

---

Campos SoftTouch enhances the softness and comfort of your textiles. This treatment improves the fabric's texture, giving it a softer and more pleasant feel.

Thanks to its action, the mattress becomes a cosy and comfortable space, ideal for relaxing after a long day.

Best of all, Campos SoftTouch does not compromise the fabric's breathability or resistance. In addition to improving texture, it helps reduce skin friction, which can prevent discomfort during sleep. You'll enjoy a mattress that maintains comfort and softness night after night, offering uninterrupted and pleasant rest.
