

CAMPOS®

Stretch knitted fabric.

SANITIZED

The textiles we use daily can become a breeding ground for bacteria, fungi, and unpleasant odours. With SANITIZED® technology, fabrics gain advanced protection that ensures freshness, hygiene, and durability—ideal for mattresses, bedding, and upholstery.

Key benefits of SANITIZED® treatment:

- Inhibits bacteria and fungal growth, reducing odours and extending freshness.
- Increases fabric lifespan by preventing deterioration from microorganisms.
- Provides a hygienic, comfortable feeling—perfect for high-demand environments like hospitals and hotels.
- Backed by international certification for safety in skin contact.
